Our Charges Explained...

At Ideal Financial Solutions we have five options available to our clients, depending on what level of service you require, will depend in which bracket you will fall. Your adviser can help you understand this in more depth.

Option 1. **Starter** – This is for new investors wishing to start their financial journey and who hold assets under £20,000.

Option 2. **Growth** – This is one of our more popular categories, this is for those seeking growth with a minimum investment period of over 5 years.

Option 3. **Growth Premier** – This is for clients who would require the **Growth** option but are looking for a higher level of servicing, typically with assets over £500,000.

Option 4. **Income** – For those wishing to take an income within the next 5 years.

Options 5. **Transactional** – This is for those who require initial advice and implementation but no ongoing advice. Where ongoing advice then becomes required down the line, this can be charged on a one off basis or if it becomes more regular it can be moved onto our **Growth** option if required.

All advice options will be discussed in the initial meeting with your adviser, depending on your individual circumstances and preferences we will help you choose the best outcome for you.

What Happens Next And What Do I Get?

Initial Fee Will Provide...

Our initial fee covers an initial meeting with our Investment Adviser. During this meeting we will identify your individual needs and requirements and discuss the costs and service options available to you. Once agreed and instructed we will gather financial information to provide us with an overall financial picture of your circumstances.

We will then assess your attitude to risk capacity, this will help us understand your level of investment knowledge as well as learning what appetite you have for financial risk. This is an important part of our service, if we feel your objectives don't meet your appetite to risk we can discuss this and help give you a better understanding of your financial ambitions, we are all human and at IFS we really want you to fully understand what you want and what we say.

Next up, we will make our recommendation based on all the information and discussions with you. Once you confirm you are happy with this, we will implement this by completing all the paperwork and reaching out to the providers as necessary and keeping you informed throughout.

Ongoing Fee/Service

If you have chosen one of our packages where there is an ongoing charge then clearly your financial future is very important to you and to us too, so we will keep this under review. We will provide you with an annual review and assessment to ensure your investment is headed where you intended it to. We will happily make changes for you should your personal circumstances change. We will send you our quarterly newsletter by email to ensure you are kept up to date with any economic changes that could affect you and your finances as well as top-tips and information. Nothing is too much trouble, our ongoing service really gives us the chance to make life-long client relationships that we are sincerely grateful for.

We hope you find our charges and service guide handy, we very much look forward to assisting you with your long-term financial aspirations and building a lasting relationship.
